

Control panel

Dashboard

After successfully logging into your UCDN account, you will see the control panel on the left. The first tab is Dashboard and it includes:

- **Day of the week and month** - shows the statistic of the calculated parameters (bandwidth, traffic and file hits) for the selected day of the week and month

Pick date range

From date

24.07.2017 07:08

To date

25.07.2017 07:08

July 2017

Su	Mo	Tu	We	Th	Fr	Sa
						1
2	3	4	5	6	7	8
9	10	11	12	13	14	15
16	17	18	19	20	21	22
23	24	25	26	27	28	29
30	31					

Time 07:08

Hour - +

Minute - +

Now Done

- **Bandwidth** - shows the used bandwidth for certain time

Control panel

Bandwidth Gbps

chart resolution: 5 minutes

- **Traffic** - shows the amount of generated traffic

Traffic TB

chart resolution: 5 minutes

- **File Hits** - shows the total number of file hits

Control panel

File Hits millions

chart resolution: 5 minutes

These graphs will be discussed in detail in the next section Stats
