

Stats

Analytics

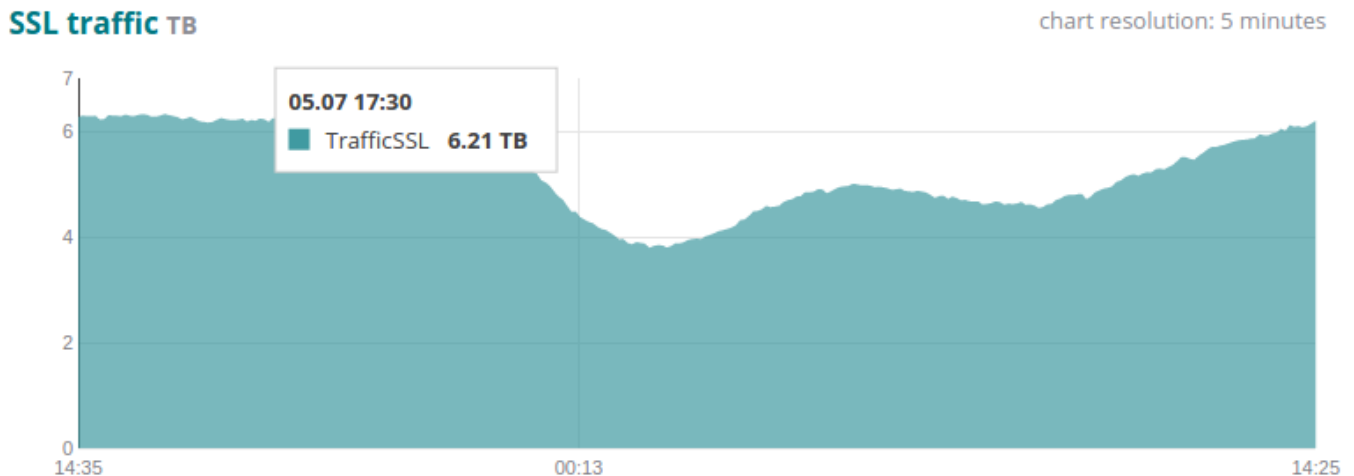

To view statistics for a given zone, you need first log in to my.ucdn.com. Then click on "Stats" from the menu on the left.

You will see a page containing various graphics for a certain zone, you can choose from the menu on the right. Next to the zone, you can select the interval for which we want to check the statistics:

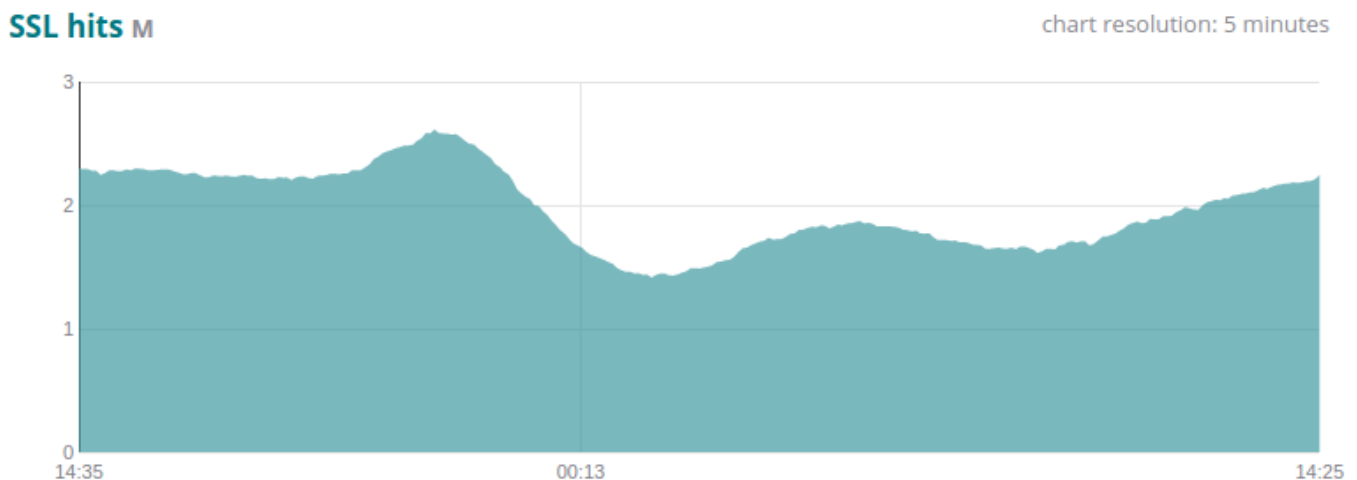

These are graphs that provide different information:

- **SSI traffic** - shows used SSL traffic for a certain time

- **SSL hits** - shows the total number of SSL hits

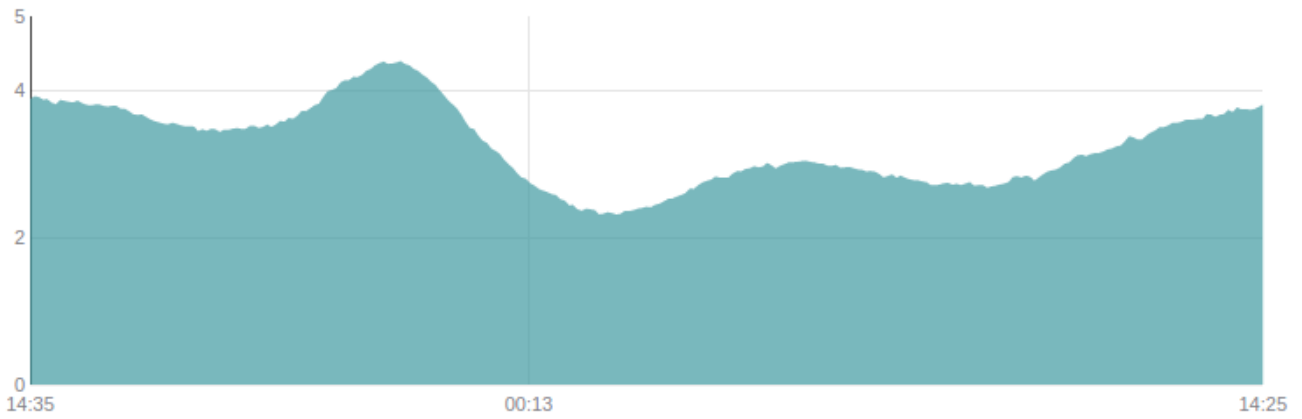

- **HTTP2 traffic** - shows used HTTP2 traffic

Stats

HTTP2 traffic TB

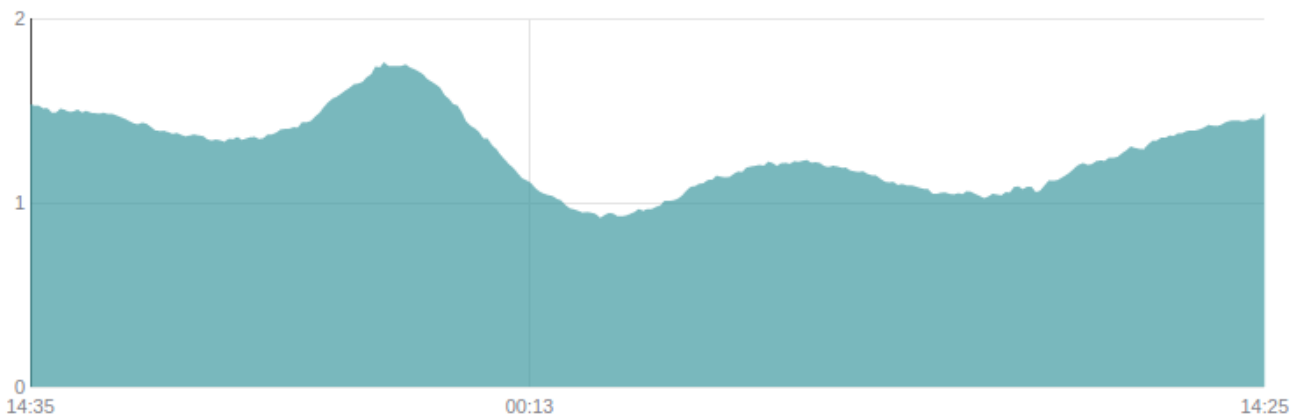

chart resolution: 5 minutes

- **HTTP2 hits** - shows the total number of HTTP2 hits

HTTP2 hits M

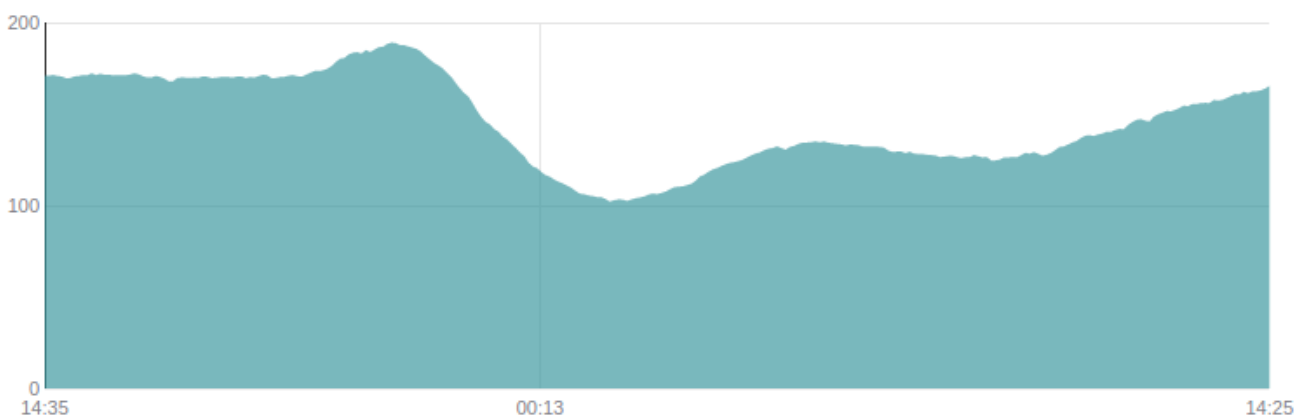

chart resolution: 5 minutes
