How to integrate UCDN with Social Engine?

(*Disclaimer: Please be advised that the following instructions may have undergone some changes due to the third-party software and plugins updates.)

socialengine.com

1. Log into your Social Engine admin panel.
2. From the top navigation menu, hover on **Settings**, then click on **Global Settings**.
3. Scroll down to **Static File Base URL**.
4. Enter the CDN URL in a **full format** like at bellow:

Static File Base URL

The base URL for static files (such as JavaScript and CSS files. Used to implement CDN hosting of static files through services such as MaxCDN.)

The http:// part is mandatory.

5. Scroll down and click **Save Settings**.
